# Program Overview

During 50 years of innovation, Solid State Logic (SSL) has evolved to become the world's leading manufacturer of analogue and digital audio consoles and provider of creative tools for live, studio, film and broadcast professionals.

Maximise your curriculum and empower your students with the Solid State Logic Certified Training Partner Program, designed to provide students with learning experiences that compliment your programs and enhance employability in an ever-changing industry.

By partnering with SSL, you'll give your students access to tailored resources, built in discounts, industry experts, and hands on learning opportunities that go beyond traditional classroom learning.

Our mission is to provide you with the tools you need to help your students build critical skills, expand their networks and gain a competitive edge in the job market.

## Program Benefits

The SSL Certified Training Partner Program has been developed to include several benefits, to support both the educational institution and students in their learning. These include:

### Volume Discounts on Plug-in Bundles

SSL Certified Training Partners can take advantage of purchasing server-based or stand-alone license bundles in bulk that come with a large saving.

SSL Certified Training Partners can purchase packs of 5x, 10x and 25x licenses. Packs of 10 license bundles will get you a 10% discount on each license bundle and packs of 25 will get you a 20% discount on each license bundle.

Upon application approval and payment, you will receive redemption codes to activate and install your licenses.

## Exclusive Hardware Discount

Why stop at software? Our Training Partner Program also includes an extra 10% discount on top of educational pricing for hardware. This exclusive discount applies to the following SSL products:

- Delta-Link MADI OptiCoax Mk2 - 115V
- 500-Series E Dynamics Module
- 500-Series E EQ Module
- 500-Series Bus Compressor
- 500-Series VHD Preamp
- 500-Series 4KB Dynamics
- Harrison 500-series 32C Preamp
- Harrison 500-series Compressor
- Harrison 500-series MR3 EQ
- SSL 2 (Mk 2)
- SSL2+ (Mk 2)
- UF8
- UC1 (Native Controller)
- UF1
- The Bus+
- PureDrive Quad
- PureDrive Octo
- BiG SiX
- 500 Series Ultraviolet EQ
- 500 Series Six Channel
- SSL12 Audio Interface
- SSL18 Audio Interface
- SSL Alpha 8
- Fusion
- SiX
- UF8 Rack Kit
- UC1 Rackmount kit
- SiX Custom Carry Case
- Single SiX Unit Rack Mount Kit
- Dual SiX Unit Rack Mount Kit

## Preferred Pricing on Large Format Consoles

Looking to purchase an industry leading console? Whether you are looking to replace or upgrade your current console, or purchase for a new studio build, SSL Certified Training Partners will receive preferred pricing. Please contact your SSL education representative to discuss your requirements for a tailored quote.

## Branding and Marketing support

Authorised to use the official SSL Certified Training Partner logos for digital marketing along with branded digital images which can be printed and used as posters to make your studios and lab rooms an inspiring place to study.

It does not just stop there, we also include a branded short sizzle reel that can be used to showcase the partnership during fresher's week and open days.

## Student Discounts

At SSL we want students to have the flexibility with their learning, so they can study and practice outside of the classroom too. To compliment the use of software in the classroom they are entitled to 50% off the [Complete Access Bundle](#) today!

## Exclusive Mailing List

Your students will be given the opportunity to opt into our exclusive mailing list dedicated to any student studying at an SSL Certified Training Partner. Our mailing list is designed to provide students with access to promotional pricing, product giveaways and an invitation to in person or streamed workshops and masterclasses taught by industry professionals & the Solid State Logic team.

You can access the Solid State Logic Privacy Policy here - [Privacy Policy | Solid State Logic](#)

## Full Access to Expert Led Training Courses

The SSL & Slate Digital Academy is home to dozens of professional courses from leading producers & industry experts. Designed to complement students learning, they will be able to take a deep dive into the plug in's included in the Complete Access Bundle, along with Hip-Hop Production with Just Blaze, Todd Bergman and much more.

## Earn Certificates

Why stop at content? SSL Certified Training Partners will have access to Academy courses hosted on our Learning Management System which will enable students to set themselves up for success and gain a certificate of completion for top courses such as Metal Mixing, Rock Mixing, Hip-Hop Production with leading producers & mix engineers.

**Our courses are designed to compliment your studies with real world experience.**

### HIP-HOP MIXING

Grammy-Nominated, Multi-Platinum engineer Todd Bergman (Kanye West, Wale, Brandy, Weezer) breaks down his mix for Jerry's "They Always Say", revealing bass-mixing gems, analog-style tricks and his alternative to parallel processing.

### SOUND DESIGN

Learn the step-by-step process to create any sound you can imagine.

### ELECTRONIC MUSIC PRODUCTION

Learn Electronic Music Production from world-touring DJ Sevens. Learn the entire process of creating a track from scratch.

### HIP HOP PRODUCTION

Learn Hip-Hop production from the legendary hip-hop producer Just Blaze. Get inside his head and learn his techniques for making incredible hip-hop records.

### METAL MIXING

Learn Metal Mixing from the legendary producer/engineer Kane Churko. Get inside his head and learn how he mixes incredible metal tracks.

## Access to Education Focused Events

We know how important it is during your studies to get hands-on experience with professionals working in the industry, the real-world experience in an ever-changing industry can be so valuable in aiding a student to develop the skills they need to be ready to jump straight in upon graduation.

Networking also plays a vital role when searching for your first break into the industry, therefore, any student and staff member of an SSL Certified Training Partner will be in the know of upcoming SSL education focused events. This includes live streamed training sessions with industry professionals and product experts, live regional Training Partner events and more.

## Partner Directory

SSL Certified Training Partners will be listed on our partner directory visible on the Solid State Logic website. This will enable students, fellow educators and industry to verify the partnership along with providing professionals seeking SSL certification & training a place to find an SSL Certified Training Partner near them.

## Program Requirements

There really is nothing worse than jumping through hoops...

The SSL Certified Training Partner Program is designed to support any College, University or Independent Training Company in their mission on teaching the next generation. Whether you are teaching a Music Diploma, Degree or short courses for professionals wanting to expand their knowledge, our content will complement your current curriculum to ensure everyone is able to learn SSL.

There are a few things to take note of as follows.

## Eligibility

The following both public and private Educational Institutions are eligible to apply for the SSL Certified Training Partner Program:

- School
- College
- University
- Independent Training Company

*Note – Independent Training Companies must have been established and actively running courses for a minimum of 1 year. Independent Training Companies must be willing to provide a marketing/business plan upon request.*

## Volume Discounts on Plug-in Bundles

An SSL Certified Training Partner must purchase a **minimum of 10x** license bundles to meet the minimum requirements of the program. Additional packs of 5x, 10x and 25x can be purchased with volume discounts to meet the needs of your facilities.

## System Requirements

SSL plug-ins have been tested on the following platforms:

- FL Studio
- Ableton Live
- Logic Pro
- Reaper
- Pro Tools
- Cubase
- Studio One

# FAQ

## Do we need to own any SSL hardware or an SSL console to become an SSL Certified Training Partner?

No, you do not need to own an SSL console or hardware to be eligible, however SSL Certified Training Partners do get an additional discount on select hardware and preferred pricing on large format consoles so feel free to make use of it on your next SSL purchase!

## Do students have to opt into the exclusive mailing list?

No, this is entirely optional although we do highly recommend opting in to avoid missing out on the added value and benefits. You'll be given the option to provide us with a list of students to add to the list upon application approval.

You can access the Solid State Logic Privacy Policy here - [Privacy Policy | Solid State Logic](#)

## Do the license bundles have an expiration date?

Yes, discount codes will expire 1 year after the date of iLok Deposit. Upon renewal of your SSL Certified Training Partnership, you will receive a new set of redemption codes for your systems.

## Do we have to renew our partnership each year? How do we renew?

Yes, renewal is a part of the program. Following the renewal process, you will receive a new set of redemption codes for your licenses and any other additional benefits. **There are three renewal cycles per year, these are:**

- **May 31<sup>st</sup> - May 31<sup>st</sup>**
- **August 1<sup>st</sup> – August 1<sup>st</sup>**
- **January 31<sup>st</sup> – January 31<sup>st</sup>**

## Can my students pick and choose which courses they take?

Absolutely, if a student subscribes to the complete access bundle, they

will have access to our library of tutorials which will help guide them around using the plug in's within the bundle. An SSL Certified Training Partner will also be able to share our professional courses with their students via a link who can then go on to earn certificates of completion.

### **How does the 50% discount verification work for students?**

SSL Education discount works with Proxy ID, a third-party verification platform to confirm eligibility. Verification is completed entirely online and usually goes through immediately. For Proxy ID support, please visit - <https://federation.proxi.id/support>

### **What if my institution is an independent training company?**

All SSL Certified Training Partners that are not running government-recognised courses are still eligible to receive volume discounts on license bundles if their application is approved.

We look forward to welcoming you to the Solid State Logic Certified Training Partner Community.
